

Models Available:

Our Complete Line of
PJ High Frequency Surge Testers
from 6KV to 50KV

PJ Electronics offers a wide selection of models from which to choose! Basically, you may custom order a tester to meet your specific needs. Refer to the "**More Info...**" link below each Model to get detailed information regarding those specific PJ Model Surge Testers.

2 Piece Portables 6KV to 15KV	Signature Models 6KV to 20KV	Consoles 10KV to 50KV	MOST Multi-Operational Surge Testers 6KV to 15KV	
H6 H10 H12 H15	-Bench- S6, TS6, SP6 S10, TS10, SP10 S12, TS12, SP12 S15, TS15, SP15 <i>New!</i> S20, SP20 -Portable- TSM6, SPM6 TSM10, SPM10 TSM12, SPM12 TSM15, SPM15	C10, TC10, HC10, MC10 C12, TC12, HC12, MC12 C15, TC15, HC15, MC15 C20, TC20, HC20, MC20 C25, TC25, HC25, MC25 C30, TC30, HC30, MC30 C35, HC35 C40, HC40 C50-2M*, HC50-2M*	-Bench- MB6 MB10 MB12 MB15	-Portable- M6 M10 M12 M15

PJ Electronics manufactures **12 lines** of Bench, Portable & Console Model Digital High Frequency Surge / DC Hi-Pot Testers.

You may choose from the following:

- a 2 piece Portable Model: the "H" Model - 2 piece High Frequency Surge Tester
- 3 Signature Bench Models: the "S" Model - High Frequency Surge Tester, the "TS" Model - High Frequency Surge Tester with 3 Phase Transfer Switch, the "SP" Model - High Frequency Surge / DC Hi-Pot Tester
- 2 Signature Portable Models: the "TSM" Model - Portable High Frequency Surge Tester with 3 Phase Transfer Switch, the "SPM" Model - Portable High Frequency Surge / DC Hi-Pot Tester *New! 20KV Bench now available in "S" and "SP" Models.*
- 4 Console Models: the "C" Model - High Frequency Surge Console Tester, the "TC" Model - High Frequency Surge Tester with 3 Phase Transfer Switch Console, the "HC" Model - High Frequency Surge / DC Hi-Pot Console Tester, the "MC" Model - Multi-Operational Surge Tester (**MOST**) Console... Surge, DC Hi-Pot, and 3 Phase tester all in one
- or a Multi-Operational Surge Tester (**MOST**) in either a Bench, the "MB" Model or a Portable, the "M" Model

220-240 operating line voltage is available upon request and for an additional cost. Please add the following designation, "**-2M**", after the model number for PJ Surge Testers designed to operate from 220-240 operating line voltage. *50KV models (C50 and HC50) only available in 220-240VAC. Therefore, the C50 and HC50 models are identified as Model C50-2M and Model HC50-2M.
